# **Solar for all grant competition**

## Overview

---

Is solar for all a competitive grant program?

Section 134 (a) (1) of the Clean Air Act provides that Solar for All is a competitive grant program. Therefore, there are no statutory allocations in the competition, and EPA may modify award allocations based on the quality of applications that are received and other program considerations.

Will EPA grants go to residential solar projects?

The EPA grants will go toward residential solar projects. The Environmental Protection Agency has announced the selection of 60 recipients of \$7 billion in grant awards through the Solar for All grant competition, the agency said Monday.

What is a solar for all grant?

Grantees must use all Solar for All program funds to enable communities that fall within the scope of EPA's definition of low-income and disadvantaged communities to deploy and benefit from residential distributed solar.

Can a state compete for a solar for all grant?

No, only states, territories, municipalities, Tribal governments, and eligible nonprofit recipients can compete for funding under the Solar for All grant competition.

Why is EPA launching a \$7 billion solar for all competition?

As part of this program, EPA is launching a \$7 billion Solar for All competition — designed to spur the deployment of residential distributed solar energy to lower energy bills for millions of Americans and catalyze transformation in markets serving low-income and disadvantaged communities.

Who is eligible for a solar grant?

This competition will award up to 60 grants to states, territories, Tribal governments, municipalities, and eligible nonprofit recipients to expand the number of low-income and disadvantaged communities primed for distributed solar investment—enabling millions of low-income households to access affordable, resilient, and clean solar energy.
