EPA announces selectees under Greenhouse Gas Reduction Fund grant competition to deliver solar to low-income and disadvantaged households through the President's Investing in America agenda April 22, 2024 EPA Region 10 Press Team (r10_press_team@epa.gov) SEATTLE (April 22, 2024) - Today, as the.

- Today, on Earth Day, U.S. Senator Maria Cantwell (D-WA) and U.S. Senator Patty Murray (D-WA) announced that the Environmental Protection Agency (EPA) is awarding over \$156 million to the Washington State Department of Commerce to expand the Solar For All Program, which helps deliver residential.

SEATTLE - Today, the U.S. Environmental Protection Agency (EPA) announced that the Washington State Department of Commerce was awarded \$156,120,000 in funding through the Greenhouse Gas Reduction Fund's Solar for All program. The competition, created by President Biden's landmark Inflation.

Washington has regained access to more than \$150 million in previously frozen federal funds for solar energy projects, state officials said. For at least a

week, the state Department of Commerce was locked out of its Solar for All grant money expected to help thousands of residents in low-income.

In a significant development for Washington State, access to over \$156 million in previously frozen federal funding for solar energy projects has been restored. This funding is crucial for the state's Solar for All initiative, which aims to enable low-income communities to harness solar power. Does solar work in Washington?

Knowledge is power. Yes, solar does work in Western Washington and the Puget Sound. The sun is producing electricity whether we see it or not. The cooler climate is ideal for solar panels, and since dust is not an issue in our area, the panels are low-maintenance. Washington's incentives are also among the best in the country.
