Solar fountain pump nz

Overview

How do I use a floating solar pond pump?

The floating solar pond pump is a lovely attraction for the pond. Simply place it on the surface of the water and you are done. The floating pump will begin pumping water as the sun shines. Simple use without installation. Use this link to the Information page: [Automatic_Solar_Garden_Irrigation_System.pdf](#) or [.](#)

Are our pumps customised for solar application?

Our pumps are customised for solar application. Apart from the very cheap models (under \$100) they are primarily designed for industrial applications, so are of rugged construction. They must always be immersed in water when operating to lubricate the ceramic bearings or they will be severely damaged.

What are the dimensions of floating solar powered fountain pump?
