This culture of excellence permeates the actions and attitudes of our Team Members. Our parent company, Service Experts, is th.

How much does a solar panel installation cost in Atlanta?

A typical solar panel installation costs anywhere from \$9,555 to \$27,300 in Georgia. Prices in Atlanta are comparable, ranging from \$9,338 to \$26,679 on average. Installers usually price systems according to their wattage. Nationally, costs per watt range from \$2.50 to \$5. In Atlanta, the average cost per watt is \$2.67.

How can Atlanta make solar more affordable?

For instance, the city of Atlanta, jointly with other groups, has initiatives that focus on making solar more affordable for residents, businesses and nonprofits in Atlanta. The federal solar investment tax credit (ITC) is still the most significant incentive for a lot of homeowners.

Can solar panels help you save money in Atlanta?

Choosing the best solar panel installation company for your house in Atlanta can save you a lot of money. By offsetting your energy costs with a solar system over 20 years, you can save about \$20,000 on your electricity bills.

Is Atlanta a good place to go solar?

With a population of 496,480, Atlanta has a higher cost of living than the national average, which means you may pay more for a local service here than you would in a more remote area. However, this is not always the case, as regions with more sunny days than others can offer a wider range of solar

opportunities.

How do I choose a solar installation company?

Choosing a solar installation company also means researching and deciding on the type of solar panels you want to install. There are three main types of solar panels available for residential use: monocrystalline, polycrystalline and thin-film.
