

Solar lamp post with flower pot

Overview

How does a solar powered outdoor LED lamp post work?

Add light to your outdoor space, without using electricity, with this Solar Powered Outdoor LED Lamp Post. With a sensor, the LEDs will charge throughout the day and then automatically turn on at night. It also adds style with a planter at the base and a removeable plant hanger to display your favorite flowers.

Should you buy a solar lamp post with planter?

Customers say the solar lamp post with planter is an attractive addition to their outdoor spaces, praised for its easy assembly and aesthetic appeal. However, many reviews highlight concerns about the light's brightness and stability, with suggestions to add weight to the base for better support.

What is a solar lamp post?

1-800-628-0525. This solar lamp post allows you to create a pop of decorative light anywhere outside your home. Solar power collects and charges the batteries which charge the LED lights. Simply place the lamp outdoors in a location where the solar panels will receive direct sunlight.

Does Home Depot have a solar powered outdoor LED lamp post?

To verify or get additional information, please contact The Home Depot customer service. Add light to your outdoor space, without using electricity, with this Solar Powered Outdoor LED Lamp Post. With a sensor, the LEDs will charge throughout the day and then automatically turn on at night.

How to use a solar lamp post to light a patio?

To use a solar lamp post to light a patio, you must first activate the manual switch to start the lighting. It is recommended to activate the switch early in the morning for the first charge, and then turn it off in the first night to ensure the battery is fully charged using the solar energy collected the next day.

What is the height of this solar lamp post?

This solar lamp post is 77 inches tall from base to top. It has been designed with rust-resistant cast aluminum and a powder-coated black finish, providing a sophisticated light fixture to any ambience.
