

# **Solar light for yard signs**

## Overview

---

What are outdoor solar powered LED sign lights?

Outdoor solar powered LED sign lights are the perfect solution for illuminating signs in remote locations, or areas where it's too costly to access mains electric power.

What types of signs can be powered with a solar lighting kit?

These include internally lite, channel lettering lite, or externally lite signs that can all be powered with a solar lighting kit. When you look at installation, traditional sign lighting systems can require long runs of electrical wire (from a power source to the light fixture), which often need to be buried (trenched) and re-landscaped over.

What are solar sign lighting kits?

Solar sign lighting kits are a great way to illuminate your signs, banners, billboards, and other outdoor advertising materials. Suninone sign lighting products use the power of the sun to provide bright, energy-efficient, and eco-friendly lighting for your signs.

Do you manufacture solar sign lighting kits?

We manufacture the kits with our LED lighting included but if your sign already has LED's or you are using the manufactures design and LED's we have a solar sign power unit for you also. Solar sign lighting kits are a great way to illuminate your signs, banners, billboards, and other outdoor advertising materials.

What is a 6 x 12 solar sign lighting system?

Our 6' x 12' solar lighting kits illuminate an area up to 72 sq. ft. and includes two lights. Common uses for our solar sign lighting system kits include lighting billboards, business signs, and monument lighting. [How Do I Know Which Sign Lighting System I Need?](#)

It's really easy to determine which of our solar sign lighting systems you will need.

How do solar signs/signage lighting systems work?

Solar signs/signage lighting systems collect sunlight during the day to power your sign lighting at night.
