Your provided information, especially your zip code, helps us identify vetted and qualified solar panel cleaning services within your local vicinity. We'll match you with local professionals, and you'll typically receive competitive cleaning quotes from them within 24.

At Shine, we are experts in professional solar panel cleaning and promise the best, safest, and most effective way to clean panels. While it might seem simple, many things play a part in how and when to clean your solar panels: Using the correct cleaning products, water pressure, angle of spray.

Solar panel cleaning costs \$10 to \$20 per panel or \$150 to \$500 total on average for most average residential solar systems. Some companies include an inspection in this price, while others charge a separate inspection fee. If problems surface during the cleaning or inspection, you may be looking.

We provide detailed and professional solar panel cleaning services to California residents, corporations, office buildings, industrial buildings, farms, etc. Single Cleaning for \$125.00 & Our Yearly Plan which includes four cleanings per year, once every three months, ONLY \$225.00 We provide large.
