# Solar panel container turnkey solution price in Canada

## Overview

---

Can a grid tie Solar System reduce utility bills?

**DIY - Grid Tie Solar System Kits** One of the most popular and cost-effective do it yourself solutions for residential properties to reduce utility bills is the grid tie solar kits. Grid Tie systems feed electricity created by your solar panels directly into your home electricity system and require less equipment to install.

Does CDN solar offer a do-it-yourself solar kit?

CDN Solar offers a full range of do-it-yourself solar kits for you to choose from. Whether you need solutions for your Off Grid property, looking to reduce utility bills with a Grid Tie kit or to take your RV off grid for longer. We offer a number of options for you depending on your requirements and all kits come with everything you need.

How much do solar panels cost in PEI?

Prince Edward Island – Solar panels in PEI cost around \$2.60 to \$3.27 per watt, with incentives and community-based energy initiatives supporting the shift to renewables.

Can solar panels be placed on a container roof?

We love the strategically placed solar panels on top of the container roof - we've accomplished this secure mounting with our field tested RPS Scalable Ground Mount. Check out the Scalable Ground Mount page + manual. How will the container be delivered to my location?
