

Solar panel container turnkey solution price in India

Overview

What is a containerized solar PV system?

Powtech's Containerized Solar PV Solution utilizes innovative hybrid technology housed within a standard 20-ft marine container, delivering up to 10,000 kWh of energy annually. The system integrates solar panels positioned atop the container, boasting a power capacity range of 4 to 8 kWp, complemented by a reliable battery backup system.

Why should you choose a turnkey EPC solution in India?

Our comprehensive Turnkey EPC solutions in India seamlessly integrate solar power into your operations, ensuring a smooth journey from concept to completion. Our team of dedicated professionals, boasting decades of experience, meticulously crafts each project to maximize your savings and minimize your environmental impact.

What is the self-sustainable containerised solar PV solution by STATCON Energiaa?

The brand new self-sustainable Containerized Solar PV Solution by Statcon Energiaa provides a ready-made alternative for the common problem of power supply to remote and far-flung areas. The containerised hybrid Solar PV solution can generate around 10,000 kWh/year.

What is powtech's containerized solar PV solution?

These prices and products are valid for India only. For export quality products and pricing, please email us at info@powtech.in. Powtech's Containerized Solar PV Solution utilizes innovative hybrid technology housed within a standard 20-ft marine container, delivering up to 10,000 kWh of energy annually.

Where will solar PV power project be installed?

The Solar PV Power project will be installed in technically vantage location

inside the Customer's plant premises. The following types of installation shall be executed based on Customer's choice. The Solar plant can be installed in the available shadow free space on the roof of the Plant or any other building inside the plant premises.
