

# Solar panel for ring

## Overview

---

What is the best Ring Solar Panel for my home?

Super solar panel is Ring's strongest solar panel to deliver the most power possible. It is the best choice for high usage, heavy traffic areas or environments that may only receive 1-2 hours of direct sunlight daily. \*Ability to recharge varies based on device settings, usage and sun exposure in the area of placement.

How long does the Ring Solar Panel need direct sunlight for optimal performance?

Ring solar power devices require three to four hours of direct sunlight a day. If your installation area is frequently very cloudy or gets a lot of rain or snow, this could limit the amount of sunlight that your solar power device receives. Note: The solar charger or solar panel requires direct sunlight.

What are the different versions of the Ring Solar Panel?

Note: There are two versions of the Solar Panel for Ring Video Doorbell. The version with a micro-USB cable is compatible with the following devices: The version with a fork connector is only compatible with the following devices Ring Video Doorbell 4. What comes in the box?

What are the dimensions of Ring Solar Panel?

.

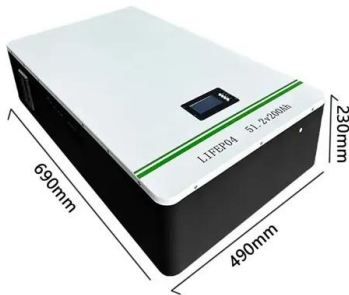

How long can a Ring Solar Panel stay charged?

Ring spotlight camera solar panel is specifically designed for the Ring spotlight camera, but there are different Ring solar panels for other cameras. It keeps the battery charged for a longer time, approximately 11 days without solar power.
