How do I choose a solar company in Atlanta?

You can estimate how much energy your home requires by using the median size of an Atlanta household, which is 2,284 square feet, and the average energy usage per household in Georgia, which is 1,072 kWh per household. This will help you choose a solar company that can meet the needs of your home while staying within your budget.

Should you go solar in Atlanta?

Solar energy offers a renewable, eco-friendly and cost-effective way to power your property. If you're from the Atlanta metro area and are considering going solar, it's important to do your research beforehand and understand basic costs for solar in your area. You'll also need to choose from the best solar companies in Atlanta that fit your needs.

Can solar panels help you save money in Atlanta?

Choosing the best solar panel installation company for your house in Atlanta

can save you a lot of money. By offsetting your energy costs with a solar system over 20 years, you can save about \$20,000 on your electricity bills.

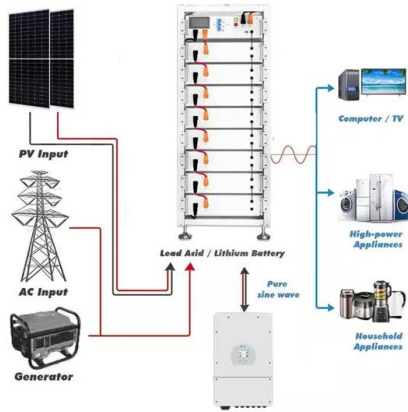

Do I need a solar battery in Atlanta?

No, you don't need to install a solar battery in Atlanta. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.
