## Overview

---

If you live in Chicago and are looking for a top solar company in the area, check out Forbes Home's list of the best solar companies in Chicago.

Who is a solar installer in Chicago?

We are a local, Chicago-area solar company that has completed nearly 250 solar panel installations within Chicago. Headquartered in Buffalo Grove, just 30 miles from downtown Chicago, we are the largest Illinois-based solar installer in the state. Chicago regulations on solar panel installations can be complicated and confusing.

What companies do you recommend for solar in Chicago?

Here are the top companies we recommend for solar in Chicago: We will never subcontract your installation to a third party. Our own well-trained, licensed electricians and installers will install your system carefully and in compliance with all safety codes and regulations. Certasun uses only the best solar panels on the market.

Are solar panels a good idea in Chicago?

Installing solar panels on your home allows you to take control of your energy costs with renewable energy. There are lots of great benefits to going solar in Chicago: Did you know that with solar panels you can reduce your ComEd bill to just \$14 a month?

ComEd prices have risen sharply over the past several years.

How much does solar cost in Chicago?

Considering that Chicago gets an average of 248 days of sun and the total potential savings of installing solar in Chicago, which is \$1,220 annually, and how many solar installations occur in Chicago (around 493), you can determine if the cost and effort of installing solar will be worth the savings later.

Should you go solar in Chicago?

Solar energy offers a renewable, eco-friendly and cost-effective way to power your property. If you're from the Chicago metro area and are considering going solar, it's important to do your research beforehand and understand basic costs for solar in your area. You'll also need to choose from the best solar companies in Chicago that fit your needs.

Can you go solar if you have a flat roof in Chicago?

You can absolutely go solar if you have a flat roof in Chicago – you'll just want to make sure you work with an installer who has the right equipment and expertise. Flat roofs can actually be great candidates for solar installations. Since pitched roofs can be more elaborate, they may have more limited solar panel placement options.
