

Solar panel installation cost comparison

Overview

How much does a solar panel installation cost?

Solar panel installation costs vary by the installation company and project scope, making it challenging to pinpoint exactly how much you'll pay to have a pro install your solar panels. However, the U.S. Department of Energy estimates that installers add around \$2.25 per watt to the cost of a solar panel installation.

How much does a solar system cost?

If you just need a few panels for a small do-it-yourself solar project, expect to pay around \$200 to \$350 per panel (between \$0.80 and \$1.40 per watt). Note: The table below doesn't include the cost of a solar storage battery, which can add anywhere from \$7,000 to \$18,000 to your total solar system costs.

Do solar panels cost a lot?

However, solar costs can vary widely depending on where you live. For instance, states like California and New York often have higher prices due to labor rates and stricter building codes, while states such as Texas and Florida tend to offer more affordable installation options.

How do I get a price estimate for solar?

Use our calculator to quickly get price cost estimates for solar tailored to your home. SolarReviews has both an extensive collection of unbiased consumer reviews of U.S. solar companies and an expert ranking system to help you identify the best solar panel installation companies in your area.

How much do solar panels cost per watt?

The average cost per watt for solar panels in the U.S. is \$2.84 for residential systems. High-efficiency monocrystalline panels tend to be at the higher end of the price range, but they generate more power with fewer panels—ideal if you have limited roof space.

Are solar panels cheaper than coal?

“The cost of solar panels has dropped by about 90% over the last decade, such that at the utility scale, in many locations in the U.S., solar energy is the least costly alternative for new electrical power generation. It now costs less to build a new solar power plant than to continue to operate a coal plant.
