Who is the best solar company in Los Altos?

The best local solar company in Los Altos is SunPower Corporation, with a rating of 4.50 stars. Are solar panels actually environmentally friendly?

Solar panels can be harmful for the environment when manufacturers use toxic chemicals in the construction.

Do solar panels cost a lot?

Solar panels are powered by a free energy source — the sun — but to take advantage of this you must first pay to set up your system. Some important things that affect the cost and possible savings include:

Are solar panels harmful to the environment?

Solar panels can be harmful for the environment when manufacturers use toxic chemicals in the construction. Chemicals can make solar panels difficult

to dispose of safely once they've reached the end of their lifespan. Making solar panels uses a lot of energy as well. The energy payback period is about 1 to 4 years.
