Let The Home Depot show you the advantages of solar power and how you can capture the sun and soak up the savings. We offer many no and low interest financing options including 12 months special financing every day on your Home Depot credit card, and up to 180 Months financing for low payments.

The average cost to install solar panels is \$12,600 to \$37,800 for a 6 kW to 12 kW system, after subtracting the 30% federal tax credit. Residential solar panels cost \$3.00 to \$4.50 per watt, including installation. However, the cost of solar panels continues to decrease each year as solar energy.

The solar specialist will review suggestions for your home based on square footage, power needs and appliance wattage to ensure a whole house solution. When your assessment is complete, we'll follow up with a quote. It'll include product and labor costs along with financing options to fit your.
