To help you make the right decision, we've put together this comprehensive guide to the best solar companies in Philadelphia, PA, as rated by our SolarReviews experts and Philadelphia residents who've already gone solar.

The ConsumerAffairs Research Team compared popular solar companies on ratings and reviews, equipment options, warranties, availability and other factors to select the top picks for this guide. Our picks may be Authorized Partners that compensate us — this does not affect our evaluations but may.

Philadelphia's electricity rates have been between 16-20% higher than the national average in recent years, according to data from the US Bureau of Labor Statistics, and residents are increasingly looking to save money and go green by installing solar panels. "Philadelphia is perfect for solar,".

We work with a panel of solar experts to create unbiased reviews that empower you to make the right choice for your home. No other site has covered renewables as long as us, which means we have more data and insider information than other sites. Our rankings are never affected by revenue or.

With so many solar companies to choose from, we know how daunting it can be to find an installer you can trust with your home's solar system. To help you make the right decision, we've put together this comprehensive guide to the best solar companies in Philadelphia, PA, as rated by our.

Homeowners agree: these Philadelphia solar panel installers are highly rated for knowledge, experience, communication, and more. Well main things we travel to customers with a mobile lab a fully equipped vehicle for repairs and fix smartphones. With less then one hour turnaround business is widely.

This comprehensive guide will help you navigate Philadelphia's solar

landscape and identify the best residential solar installation companies in the region, with special attention to our top recommendation, Bright Eye Solar. We'll explore why solar makes financial sense for Philadelphia homes. Who are the best solar companies in Philadelphia?

Here are the top companies we recommend for solar in Philadelphia: Venture Solar is the highest quality residential installer in the Northeast servicing New York, Long Island, Connecticut, New Jersey, Delaware, Massachusetts, Rhode Island, Pennsylvania, and New Hampshire. We take pride in the quality of our installations and .

Is solar energy a good idea for Philadelphia?

In Philadelphia, where the energy generation could be cleaner, going solar can have a big effect on the environment since solar power is an abundant source of clean energy. Since solar panels don't release greenhouse gas emissions into the atmosphere when generating electricity, they're a good substitute for nonrenewable energy sources.

How much does solar cost in Philadelphia?

The average price of solar is about \$1.9 to \$2.86 per watt in Philadelphia, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Can solar panels save money on electricity bills in Philadelphia?

In addition, you can save about \$15,000 over 20 years on your utility bills, not including incentives. Average daily sunlight: Since Philadelphia gets a decent amount of average daily sunlight, your solar panels can generally produce enough energy to power your whole home, which influences how much your electricity bills will be.

What makes a good solar installer?

Availability (10%): The bigger the service area, the higher the company will score. Transparency and accessibility (5%): Solar installers that offer free consultations and easy contact methods score higher in this category.

Are solar incentives a good idea in Philadelphia?

Solar incentives and rebates can cut the cost of installing solar in Philadelphia by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
