Our team of educated professionals will walk you through the solar power system installation process. You'll learn about the various systems and how they work. Then, we'll install your chosen system properly.

Are solar panels financed in San Antonio Texas?

We are 100% locally owned and operated in San Antonio, Texas and have over 20 years combined experience in the solar industry. When financed, most homeowners can reduce their monthly cash outlay by 30-40%. This means your monthly payment can be 30-40% less than your monthly electric bill would be.

Who are the best solar companies in San Antonio?

Here are the top companies we recommend for solar in San Antonio: Green Power Energy has been in operation since 2009, serving thousands of homes and businesses across the Northeast. Green Power Energy has its own installation teams and our consultants are professional, low pressure, and educational. We work with a variety o.

How much does solar cost in San Antonio TX?

The average price per watt of solar power in San Antonio, TX is \$2.06/W. These prices are before incentives. After the federal solar tax credit, the final cost will drop by 30%, down to \$20,954 for a 14.5 kW system.

Should you get a solar loan in San Antonio?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits,

rebates, etc.) available in San Antonio, rather than a leasing company retaining them.

What are the best Solar Lease companies in San Antonio?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in San Antonio.
