Who is the best solar company in Virginia Beach?

With that in mind, here's our ranking of the top five solar companies in Virginia Beach, VA based on ratings, reviews, and more. Nova Solar has become the most trusted name in solar for DC, Maryland, and Virginia because of our commitment to . We are a solar installation company that handles both installations and permit acquisition in-house.

How many solar companies are there in Virginia Beach?

But Virginia Beach, VA has 9 solar companies available on the EnergySage Marketplace alone--so how do you choose the best one?

Ranking solar companies is our bread and butter. We screen every solar company before allowing them to join our platform to ensure they'll deliver top-notch installations.

How much does solar cost in Virginia Beach?

The cost per watt makes it easier to compare prices between quotes and gives you a better idea of how fairly the system is priced. The average price of solar is about \$2.13 to \$3.19 per watt in Virginia Beach, so anything in that range is a fair price. Some prices may be too good to be true.

How do solar incentives work in Virginia Beach?

Solar incentives and rebates can cut the cost of installing solar in Virginia Beach by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they

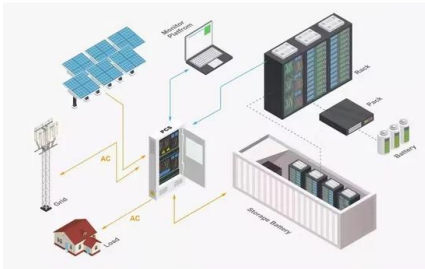

purchase solar panels or battery storage.

Do solar installers need a certification?

Certifications aren't necessarily required, but are a great way to weed out lower quality installers. The North American Board of Certified Energy Practitioners (NABCEP) offers an industry-leading certification program, while the PV Installation Professional (PVIP) Board Certification is the gold standard for solar installers.
