Solar panel installers in tennessean counties

Overview

How do I choose a solar installer in Tennessee?

Look for companies that have NABCEP Certified professionals or certified electricians on staff and are properly insured, so their workers, and you, are protected. In Tennessee, solar installers must have a general contractor's or electrical license, depending on the size of the job performed.

Who are the best solar contractors in Tennessee?

Pointe is a full-service general contractor constructing projects ranging from small office renovations to multi-million dollar developments. Mainstream Green Solutions in Tennessee offers a variety of power solar solutions for your home or office. Lightwave Solar is a solar engineering, procurement, and construction firm.

Do you need solar panels in Tennessee?

Tennessee's climate is fairly seasonal, so you can expect more solar production in the sunnier summer months. Tennessee gets around 4.5 to 5 peak sun hours every day, which is pretty average in the U.S. You might need more solar panels to offset your energy usage in Tennessee than in a sunnier state like Arizona.

Do solar installers need a license in Tennessee?

In Tennessee, solar installers must have a general contractor's or electrical license, depending on the size of the job performed. The state board assigns "specialty" licenses to installers based on experience and uses this information on their financial statement to determine the size of the projects they are authorized to perform.

How much does a 5 kW solar system cost in Tennessee?

A 5 kW solar system can cost about \$20,000. Tennessee offers incentives that can help lower the price by up to \$8,000. Although Tennessee lacks strong

solar policy and implementation, there are still resources for potential solar buyers to save money.

Is a solar battery worth it in Tennessee?

Tennessee doesn't currently offer any upfront rebates for purchasing a solar battery. But, if you want peace of mind that your home will have backup power in the event of a power outage and to see extra savings on your electric bills each month, a solar battery can be worth it.
