Is yes solar a good company to install solar panels?

Timothy M. said "We are very happy with how our solar panels look, the reasonable price, and Yes Solar team's knowledge and customer service. They have a very fast response time and were willing. " read more Eric L. said "This is a great locally owned company to install your solar panels.

Where do solar panels work best?

Solar panels work best for homes in sunny areas with southern or southwestern exposure and don't provide as much value in areas that are regularly cloudy or rainy. How long does it take to install solar panels?

.

Should I buy or install a solar panel system?

Purchasing and installing your solar panel system is not the only option. And even if you don't own your home, you can still use solar energy. There are also leased and community systems shared with other people who may not own their homes (or have other reasons that sharing makes sense). Consider all the options to see which is best for you.

How do I choose a solar installer?

According to Joshua M. Pearce, Ph.D., the John M. Thompson Chair in Information Technology and Innovation at Western University in Ontario, Canada, "you should try to get three solar installers to give you quotes and, all things equal, choose the lowest \$/W (cost per unit power). get a free quote

with some basic life cycle modeling.

What does a solar installer do?

According to the Bureau of Labor and Statistics, “Solar photovoltaic (PV) installers assemble, set up, and maintain rooftop or other systems that convert sunlight into energy. Most solar panel installations are done outdoors, but PV installers sometimes work in attics and crawl spaces to connect panels to the electrical grid.”
