

Solar panel mount for container project ROI in New Zealand

Overview

Do solar panels need mounting rails?

Mounting rails, on the other hand, are more stationary and provide a stable framework for your panels to attach to. Whichever type of solar mount you choose, be sure to select high-quality materials that can withstand the elements and support your panels for years to come.

Why should you buy solar panels in NZ in June 2025?

June 2025 marks a turning point for solar in NZ, with new builds, rural financing, and ICP growth pointing to structural change across residential, industrial, and utility sectors. Source time-saving solar mounting systems for all roof types and ground installations. Complete technical support, local stock, and extensive warranties.

What is included with a solar panel installation kit?

Comes with: Four corner pieces. Two side pieces. IP67 water proof cable entry housing. AS/NZS certified mounting solutions for solar panels. Includes corrugated roof rails, universal roof mounts & vehicle mounting kits. Complete mounting hardware for secure installation.

Can a solar array be mounted on a steel frame?

This is an alternative method that enables a Solar array to be mounted on a Steel or Timber frame that is set into the ground. This would be appropriate for those wanting a larger system than the available roof space can allow, or those with plenty of space that would prefer not to have modules on the roof.
