# **Solar panel mount for container shipping and installation cost in Sweden**

## Overview

---

Our solar panel frames are designed specifically for shipping containers. They clamp securely to the container's roof tubing and the flange at the bottom of the corrugation, so you can mount solar panels without drilling holes or compromising the structure.

Our solar panel frames are designed specifically for shipping containers. They clamp securely to the container's roof tubing and the flange at the bottom of the corrugation, so you can mount solar panels without drilling holes or compromising the structure.

Thinking of going solar and want to know how much it will cost to ship those panels in a shipping container?

You're not alone. With renewable energy on the rise, particularly among off-gridders, businesses, and environmentally minded homeowners, solar panel shipping logistics are growing more.

Are you considering mounting solar panels on a shipping container and wondering what to keep in mind?

This article offers a concise overview to help you understand the key considerations and shows you some real-world examples. Can you put solar panels on a shipping container roof?

Absolutely!.

With simple, efficient, and reliable solutions, we satisfy installers, raise the standard of rooftops, and guarantee excellent results for those living and working beneath them. Our solutions are flexible and easy to use for an efficient installation process, no matter where and how your solar.

Used for a large number of containers — allows modular linking of multiple containers equipped with the Solar Container system using a single inverter up to 60 kW. Works in a system with an inverter. Several containers can be connected. Requires mains power supply. Use with one or more containers.

Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power.

Package include 9 support rafters, 18 leg footings for corner-mount to standard shipping container, cross rails and 175 self-tapping galvanized screws Support rails and module clamps included. Additional costs to be paid upon shipment: Shipping cost: \$400 typically; Engineering docs for State of CA.
