

# **Solar panel pole mounting kit**

## Overview

---

Should I use pole mounts for my solar panels?

Pole mounts can be a suitable option for mounting solar panels if you don't want to mount them to your roof. They are easy to install and provide a way to mount the panels so that they are still off the ground and away from harm.

What is a pole mount solar rack?

The module rails are a mill-finish structural aluminum angle. These mounts include stainless steel module mounting hardware as well. Standard top-of-pole mounts are adjustable from 15 degrees to 65 degrees in 10-degree increments. These pole mount solar racks are made to mount on standard sizes of SCH40 steel pipe.

What is pole mount solar?

Pole mount solar refers to solar panels that are mounted on poles to hold them in an optimal position for capturing sunlight throughout the day. This mounting system can be used in combination with roof mounting but is often used as a standalone solution due to its ability to provide maximum energy collection and save space.

What is a top-of-pole mount kit?

RPS 8 Panel Top-of-Pole Mount Kits are compatible with customer supplied 4 1/2" OD Schedule 40 pipe. Sink pipe into cement like a fence post and all the hardware to mount panels will be included. It provides two sections of 81in of rails and is designed to mount eight 100W panels (Note, mount is not compatible with larger wattage panels).

How do I mount solar panels?

Mounting Solar Panels has never been easier! You'll just need to bring the pipe+cement and everything else you need will be in the box. Adjustable tilt bracket allows you to fine-tune panel angle for each season.

Do you offer solar panel mounting kits?

We offer Solar Panel Mounting Kits, to accurately place your solar panels on rooftops or any other locations. Please contact us so we can assist you in selecting the best solar panel mounting hardware for your marine solar panel mounting systems or any solar panel mounting systems.
