

The image shows a black rectangular battery with a label on the front. The label contains the following information:

- LiFePO₄**
- POWER YOUR DREAM**
- 12. 8V200Ah 2560Wh**
- Specs**
 - Nominal Voltage: 12.8V
 - Nominal Capacity: 200Ah
 - Max. Charging Voltage: 14.6V
 - Max. Charging Current: 16A
 - Max. Discharging Current: 100A
 - Max. Discharging Power: 1280W
 - Max. Operating Temperature: 60°C
 - Max. Storage Temperature: 35°C
- Caution**
 - Not a Fire, Explosion or Radio
 - Do Not Short Circuit
 - Do Not Overcharge
 - Do Not Overheat
 - Do Not Immerse in Water
 - Do Not Use in High Temperature
 - Do Not Use in High Voltage
 - Do Not Use in High Pressure
 - Do Not Use in High Humidity
 - Do Not Use in High Pollution
 - Do Not Use in High Altitude
 - Do Not Use in High Latitude
 - Do Not Use in High Longitude
 - Do Not Use in High Frequency
 - Do Not Use in High Power
 - Do Not Use in High Speed
 - Do Not Use in High Acceleration
 - Do Not Use in High Deceleration
 - Do Not Use in High Vibration
 - Do Not Use in High Shock
 - Do Not Use in High Impact
 - Do Not Use in High Compression
 - Do Not Use in High Tension
 - Do Not Use in High Torque
 - Do Not Use in High Force
 - Do Not Use in High Pressure
 - Do Not Use in High Temperature
 - Do Not Use in High Humidity
 - Do Not Use in High Pollution
 - Do Not Use in High Altitude
 - Do Not Use in High Latitude
 - Do Not Use in High Longitude
 - Do Not Use in High Frequency
 - Do Not Use in High Power
 - Do Not Use in High Speed
 - Do Not Use in High Acceleration
 - Do Not Use in High Deceleration
 - Do Not Use in High Vibration
 - Do Not Use in High Shock
 - Do Not Use in High Impact
 - Do Not Use in High Compression
 - Do Not Use in High Tension
 - Do Not Use in High Torque
 - Do Not Use in High Force
 - Do Not Use in High Pressure
- Safety Symbols:**
 - Recycling symbol
 - RoHS symbol
 - CE mark
 - Warning symbol (exclamation mark in a triangle)
 - No fire symbol (flame with a slash)
 - No explosion symbol (explosion with a slash)
 - No radio symbol (radio with a slash)
 - No high temperature symbol (flame with a slash)
 - No immersion symbol (water with a slash)
 - No high voltage symbol (lightning bolt with a slash)
 - No high pressure symbol (pressure with a slash)
 - No high humidity symbol (cloud with a slash)
 - No high pollution symbol (pollution with a slash)
 - No high altitude symbol (altitude with a slash)
 - No high latitude symbol (latitude with a slash)
 - No high longitude symbol (longitude with a slash)
 - No high frequency symbol (frequency with a slash)
 - No high power symbol (power with a slash)
 - No high speed symbol (speed with a slash)
 - No high acceleration symbol (acceleration with a slash)
 - No high deceleration symbol (deceleration with a slash)
 - No high vibration symbol (vibration with a slash)
 - No high shock symbol (shock with a slash)
 - No high impact symbol (impact with a slash)
 - No high compression symbol (compression with a slash)
 - No high tension symbol (tension with a slash)
 - No high torque symbol (torque with a slash)
 - No high force symbol (force with a slash)
 - No high pressure symbol (pressure with a slash)

Overview

Without subsidies, the solar panel price in Delhi varies depending on the capacity, quality, and brand of the panels. Typically, the price of a solar panel system ranges between ₹75,000 to ₹85,000 per kilowatt (kW), excluding installation charges.

Without subsidies, the solar panel price in Delhi varies depending on the capacity, quality, and brand of the panels. Typically, the price of a solar panel system ranges between ₹75,000 to ₹85,000 per kilowatt (kW), excluding installation charges.

Without subsidies, the solar panel price in Delhi varies depending on the capacity, quality, and brand of the panels. Typically, the price of a solar panel system ranges between ₹75,000 to ₹85,000 per kilowatt (kW), excluding installation charges. For example, a 3 kW solar system may cost around.
