

Solar panel repair and maintenance near me

Overview

What is a solar repair service?

Our solar repair service addresses issues with existing solar hot water systems to enhance efficiency, reliability, and cost-effectiveness. We frequently encounter solar panels that were installed without proper consideration for the quality of the equipment or installation by solar companies.

What is Solar Panel Repair?

Solar Panel Repair is the trading name of Chelsfield Electrical Ltd, which has been in business as an electrical contracting company since 1988 and specialising in solar PV since 2002.

Why should you choose a reliable solar repair service?

When your solar panels aren't performing at their peak, it can affect your energy savings and impact your ability to harness solar power effectively. Opting for reliable solar repair from a trusted provider ensures you get long-lasting solutions.

Can a solar panel be cleaned 'near me'?

If you're looking for solar panel cleaning 'near me', our local service includes any roof panels within a 60ft (20 metre) range from the ground, provided there's a clean line of sight. We can work at an angle and over ledges or porches with our extendable poles. Essentially, if you can stand and point at the roof panel, we can normally clean it.

Why do solar panels need repair & maintenance?

Corroded solar storage tanks and collectors are repaired or replaced to ensure consistent performance, protecting your investment and delivering reliable hot water when you need it most. A regular solar panel repair and maintenance are crucial for extending the life of your solar energy system.

Can solar panel repairs be done in one visit?

Solar Thermal Repairs team will endeavour to get the solar panel repairs done in a single visit, but this isn't always possible. If you would like to discuss solar panel repairs, please call 0333 016 4288.
