

Solar panel storage box EPC service price in Netherlands

Overview

Should you install solar panels in the Netherlands?

Another reason to consider installing solar panels in the Netherlands right now is that the Dutch government will actually foot part of the bill. Currently, the Dutch government is offering a sustainable energy investment grant (ISDE) to compensate for the cost of energy-saving and sustainable installations.

Why are solar panels so expensive in the Netherlands?

From transportation to installation, it all goes into the price. The solar panels may become cheaper, the cost of labor in the Netherlands increases dramatically. So you may be just as expensive,” says importer Peter Desmet.

What are the different types of solar panels in the Netherlands?

There are three main types of solar panels you can get in the Netherlands: monocrystalline panels, polycrystalline panels, and thin film panels. Monocrystalline panels are made using silicon and have an aluminium frame. These panels are more efficient in producing electricity from sunlight because of the structure of the cells.

How much does it cost to install solar panels?

The simple answer is that it will cost around €5000 (for six solar panels) and €12,000 (for 18 solar panels), including an inverter and installation, but excluding VAT. As of January 2023, you do not have to pay VAT on solar panels for your home. Solar panels are a big investment. Image: Freepik.

Can I buy solar panels without paying VAT?

Currently, there is no more VAT on solar panels, which means you can buy solar panels without having to pay any extra taxes on top of the initial purchase costs. The netting scheme (salderingsregeling) is an arrangement where you can earn money for the excess energy your solar panels generate.

How much money can you save with solar panels?

On average, you could save between €1,200 and €1,450 per year on energy bills if you have solar panels installed. But (surprise, surprise) the amount of money you could save varies based on how much energy your solar panels produce and the average electricity prices throughout the year.
