

# **Solar panel storage box turnkey solution price in Zambia**

## Overview

---

With prices dropping 89% since 2010 (BloombergNEF), lithium-ion dominates Zambia energy storage quotations. A 1MW/4MWh system now costs ~\$550,000—cheaper than building a new coal plant! Pro tip: Pair with Zambia's abundant solar for maximum ROI. Need 12+ hours of storage?

Why do you need a split unit system in Zambia?

Split-unit systems are ideal solutions for the tourism and social sector as well as bigger apartment buildings. Load shedding is a constant problem in Zambia which can cause devastating revenue losses. Our backup systems will help you to be prepared in case of power outages.

Why should you choose a solar pump system in Zambia?

Zambia has one of the biggest water resources in Sub-Saharan Africa and our solar pump systems will enable you to access those resources at any place. Either for residential use, irrigation of farm land or industrial applications, solar pumps will ensure an independent water supply at your location.

Why do you need a backup system in Zambia?

Load shedding is a constant problem in Zambia which can cause devastating revenue losses. Our backup systems will help you to be prepared in case of power outages. We design solutions that will secure your electronic devices like computers, laboratory equipment or even the complete electricity supply of shopping malls.
