

# Solar panel system installation reviews

## Overview

---

How do I find the best solar panel installer near me?

There are five steps to finding the best solar panels provider near you. Find a network of trusted installers for your solar system, solar panels and electricity needs. Find a solar panel installer today! 1. Understand the Costs and Credits.

How do I choose the best solar installer?

A quality solar installer will typically install quality solar panels, so your main focus should be choosing the best solar installer for the job—your installer's experience and your solar system's size have a bigger impact on effectiveness. Still, every home is different, and most will benefit from having the most efficient panels on the market.

Do solar installers have an expert rating score?

Many installers offer incentives for positive reviews, drowning out negative reviews and inflating their review score. To counter this – and provide consumers a rigorous, data-based assessment – we have developed an expert rating score for solar installers based on several ranking factors.

Who does solarreviews work with?

SolarReviews partners with around 800 solar companies, most of which are local and family-owned. We do not earn commission on sales, although we do receive a small referral fee if you request a quote from any of our partner installers. Solar companies know that they have to be competitive when bidding on referrals from SolarReviews.

What makes solarreviews the best place to buy solar panels?

Solar companies know that they have to be competitive when bidding on referrals from SolarReviews. This price competition and our rigorous process to select solar companies to partner with makes SolarReviews the best place to shop for solar panels.

How long does it take to install a solar panel?

Panel installation: After you secure your permits, your solar company begins the installation process. Local installers often have in-depth knowledge of local building codes and practices that help ensure smooth installation. This process typically takes a few days but can vary based on the system's size and complexity.
