

Solar panels company reviews

Overview

Who are the best solar panel companies?

After researching and comparing popular solar panel companies, we found that five companies stood out as top contenders for the quality, price, warranty, customer service and more that they have to offer for residential solar. Founded in Germany in 1999, Qcells is a top solar panel manufacturer specializing in new solar technologies.

Is solarreviews a good company?

SolarReviews was recognized as one of Inc. 5000's fastest-growing companies in 2020, 2021, and 2022! This is a testament to the important role that SolarReviews has played in the development of the residential and small-scale commercial solar industries over the last eight years.

What makes solarreviews the best place to buy solar panels?

Solar companies know that they have to be competitive when bidding on referrals from SolarReviews. This price competition and our rigorous process to select solar companies to partner with makes SolarReviews the best place to shop for solar panels.

Who does solarreviews work with?

SolarReviews partners with around 800 solar companies, most of which are local and family-owned. We do not earn commission on sales, although we do receive a small referral fee if you request a quote from any of our partner installers. Solar companies know that they have to be competitive when bidding on referrals from SolarReviews.

Who are the best solar companies in California?

Licensed and insured. Serves Northern California and the Bay Area. Want your company to be on this guide?

Sunlux, Project Solar and Freedom Solar Power are the top solar companies, based on customer reviews, equipment options, warranties and other factors.

What are the best solar panels?

With so many solar panel manufacturers on the market, we had a few companies that almost made it to our top five best solar panels list, including: Silfab Solar: This company offers solar panels that perform well in low-light conditions, making it a close runner-up for homes in climates that receive less sunlight than average.
