Solar panels damaged my roof

Overview

Can solar panels damage a roof?

Fortunately, roof damage from a solar panel installation is extremely rare because installers take precautionary steps while installing panels to prevent leaks and other damage. Like any home improvement project, using the right service provider is essential to a rooftop solar job.

What happens if solar panels are not installed properly?

Issues such as leaks, broken tiles, and structural damage can occur if the panels are not installed properly. To avoid roof damage, working with experienced installers who understand the intricacies of solar panel installation is essential. They will know how to secure the panels without compromising the integrity of your roof.

What should I do if my solar panels are damaged?

Conduct regular maintenance checks to assess and address minor repairs promptly. Be vigilant about tree limbs and debris that could abrade or damage the panels and roof surface. Ensure proper water drainage around solar panels to prevent pooling and potential damage to both the panels and roof.

Can solar panels be installed on a roof?

However, installing solar panels on roofs can come with its own challenges and potential problems. In this comprehensive guide, we will explore the nine most common problems that can arise from solar panel installation on roofs, and provide practical solutions to address each one. From roof damage to weight concerns, we will cover it all.

How do I avoid solar on my roof?

Another option to avoid solar on your roof entirely is to install a ground mount or join a community solar plan and receive solar energy from an offsite location. A rooftop solar panel installation is a great investment that won't

lead to roof damage when you work with a professional, experienced installer.

Should you delay a solar roof repair?

Delaying repairs can only increase the extent of roof damage and the labor cost. So, if you are aware of the fact your roof has been damaged during, or after the solar panels are mounted, it's time to consult professionals. Call A. Fricker Roofing and Waterproofing today at (918) 402-7167 and talk to experts about your roof repair.
