Support Customized Product

## Overview

---

How do I find the best solar installer near me?

Follow these tips to hire the best installer near you: Look for installers who are members of the Solar Energy Industries Association (SEIA) and certified by the North American Board of Certified Energy Practitioners (NABCEP). Read their reviews on HomeGuide and Google. Get at least three in-person estimates to compare.

What makes a good solar panel installers Directory?

A good solar panel installers directory simplifies this process. It turns hours of research into a few easy clicks. These directories showcase leading solar businesses, ensuring your search for quality installation is both fast and dependable. By using a 'solar companies near me' feature, you save time and connect with local specialists.

Does Home Depot install solar?

During your free in-home consultation, The Home Depot's local solar power installer will clearly explain the installation process and how easy it is for you to go solar. By powering your home with clean, renewable solar energy, you're creating a healthier environment and conserving natural resources.

Where should a solar power system be installed?

Regardless of the type of solar panel used, the most ideal setup for a solar power system is installing solar panels on a roof — in a region with long peak sunlight hours — with the panels facing south (for homes in the Northern Hemisphere). Investing in a solar power system is easier today than ever before.

How do I get a solar installation?

Fill out the online form, and a trusted independent installer will call you to schedule a consultation. The solar specialist will review suggestions for your

home based on square footage, power needs and appliance wattage to ensure a whole-home solution.

How much does it cost to install solar panels?

The average cost to install solar panels is \$12,600 to \$37,800 for a 6 kW to 12 kW system, after subtracting the 30% federal tax credit. Residential solar panels cost \$3.00 to \$4.50 per watt, including installation. However, the cost of solar panels continues to decrease each year as solar energy becomes more popular.
