Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Take our quick questionnaire to create a custom solar panel kit based on your energy needs.

What's included in a complete solar panel kit?

All backed by free lifetime customer support when you source a complete solar panel kit from Shop Solar -- get everything you need to go solar delivered straight to your door! All solar kits include all of the cables, connectors, adapters, solar panels, needed to get up and running with quiet, free reliable solar power!

What type of solar panels do you need?

No solar power system exists without, well, solar panels themselves. The most dominant type of panels is monocrystalline. Mono-panels last for over 25 years and they are more efficient in comparison to polycrystalline and thin-film modules. The panels for home installations generally range from 300 W to 400 W in power output.
