

# **Solar power europe 2025**

## Overview

---

Join us at the SolarPower Summit 2025 on the 26-27 of March to explore these critical questions. Hear directly from decision-makers, engage with industry experts, and connect with peers at a new venue—Albert Hall, Brussels. 2025 marks 40 years of SolarPower Europe.

Join us at the SolarPower Summit 2025 on the 26-27 of March to explore these critical questions. Hear directly from decision-makers, engage with industry experts, and connect with peers at a new venue—Albert Hall, Brussels. 2025 marks 40 years of SolarPower Europe.

SolarPower Europe, alongside representatives from the European Commission, the Dutch government, and key industry stakeholders, visited Nymphaea Aurora, a project that belongs to Oceans of Energy — a Dutch renewable energy pioneer. SolarPower Europe is the award-winning link between policymakers.

The EU Market Outlook for Solar Power: 2025 Mid-Year analysis is the first of our reports of its kind. The publication provides a brief market snapshot and outlook for the rest of the year. As solar has become a major pillar of the EU energy transition, it's important to continuously feel the pulse.

How can your solar business thrive in a more flexible and electrified energy market?

Join us at the SolarPower Summit 2025 on the 26-27 of March to explore these critical questions. Hear directly from decision-makers, engage with industry experts, and connect with peers at a new venue—Albert Hall.

The buzzwords for 2025 are: competitiveness, energy security, and climate. Solar champions all of these strategic objectives. SolarPower Europe's Let's Flex campaign continues, sharing key insights into how solar + electrification + flexibility can drive the energy transition and save the EU €32.

SolarPower Europe's new mid-year market analysis for EU solar forecasts -1.4% annual growth for 2025. This would mark the first year of negative

market growth since 2015, putting the continent's 2030 targets at risk. Despite forecasted negative growth, years of solar boom mean that the EU will meet.

Global Market Outlook for Solar Power 2025–2029 provides an in-depth forecast and analysis of the global solar power sector, with a special focus on India's rapid growth and emerging role as the world's third-largest solar market. The Global Market Outlook for Solar Power 2025–2029 is SolarPower.

## Solar power europe 2025

---

### [EU solar installations hit 65.5 GW in 2024, says ...](#)

The slowdown coincides with a decline in solar investment, marking the first such drop this decade. SolarPower Europe now forecasts annual growth of 3% to 7% in solar installations from 2025 to 2028.

### ['Europe is becoming a solar powerhouse': Solar tops ...](#)

In an historic first, solar power generated more electricity than any other source in the EU last month. New data from energy think tank Ember shows that solar accounted for 22.1 per cent of the

### **Europe on track to smash solar power output record in ...**

Solar electricity production in Europe during the first quarter of 2025 was up by over 30% from the same months in 2024, setting the stage for full-year record performance from the region's solar

### [SolarPower Europe launches new report: European ...](#)

SolarPower Europe launches new report: European solar sector issues yellow card as market data reveals 92% growth decline and

investment slump Following several years of over 40% year-on-year growth, a new report ...

### [SolarPower Summit 2025 , 26 -27 March, Brussels](#)

Join us at the SolarPower Summit 2025 on the 26-27 of March to explore these critical questions. Hear directly from decision-makers, engage with industry experts, and connect with peers at a new venue--Albert Hall, Brussels. 2025 ...

### [New report: Global PV capacity could reach 655 GW ...](#)

The new Global Market Outlook for Solar Power 2025-2029 report reveals that the world installed a record 597 GW of solar power in 2024 - a 33% surge over 2023. After the world crossed the milestone of 2 terawatts ...

### [EU solar market to decline 1.4% in 2025](#)

The 2025 slowdown is attributed mainly to a shrinking rooftop segment, particularly home solar, due to the waning impact of the 2022 energy crisis and weakening support schemes. EU utility-scale solar is forecast to ...

### [Solarpower Europe erwartet 655 Gigawatt weltweiten...](#)

Nach dem Bericht „Global Market Outlook for Solar Power 2025-2029“, den der europäische Photovoltaik-Verband Solarpower Europe in München vorstellte, könnten in diesem Jahr weltweit bis zu 655 Gigawatt an ...

### [SolarPower Europe Forecasts 655 GW of New Solar...](#)

SolarPower Europe (SPE) expects the year 2025 to see a 10% year-on-year (YoY) growth for global solar PV additions, adding 655 GW, but the growth rate will drop from an impressive 33% experienced in 2023 when the ...
