

# **Solar power exline projects**

## Overview

---

What is the major solar projects list?

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development. The list is for informational purposes only, reflecting projects and completed milestones in the public domain.

Where can I find a list of major solar project data?

SEIA makes major solar project data available to the public through the map below. SEIA members have exclusive access to the list as a sortable, searchable MS Excel file that is updated monthly.

What is a large-scale solar energy project?

The project is a large-scale solar energy initiative developed on 10,000 acres of land north of the city of London near Plumwood in Madison County. The project is expected to have a maximum generating capacity of up to 800 MW of clean electricity. It will also include a Battery Energy Storage System (BESS) of up to 300 MW.

How many solar projects are there?

There are more than 7,900 major solar projects currently in the database, representing over 322 GWdc of capacity. There are over 1,200 major energy storage projects currently in the database, representing more than 80,000 MWh of capacity. The list shows that there are more than 169 GWdc of major solar projects currently operating.

What are some examples of solar agriculture projects?

Solar agriculture TotalEnergies has several examples of solar agriculture projects in its portfolio. For the Camelicious solar project, TotalEnergies installed solar panels on a camel farm in the United Arab Emirates to power 80% of the farm's electricity needs — making it the world's first solar-powered

dairy farm.

What is a solar project phase?

A solar project phase is generally defined as a group of one or more solar units that are installed under one permit, one power purchase agreement, and typically come online at the same time. Each solar farm included in the tracker is linked to a wiki page on the GEM wiki. The most recent release of this data was in February 2025.
