

Solar power fence charger for livestock

Overview

With 0.10 output joules, this energizer will support animals and livestock such as cattle, horses, pigs, and goats. This charger energizes up to 5 miles of fencing, although if using poly products, you should expect about half of the power.

With 0.10 output joules, this energizer will support animals and livestock such as cattle, horses, pigs, and goats. This charger energizes up to 5 miles of fencing, although if using poly products, you should expect about half of the power.

A solar electric fence charger is an essential tool for protecting your livestock from predators and preventing animals from wandering off your property. Whether you're managing a small farm or a large pasture, a reliable fence system ensures peace of mind — and solar power makes it more efficient.
