

# **Solar power storage box EPC service price in Cyprus**

## Overview

---

Applications are submitted to the EAC in its power as the Distribution System Operator (DSO). Upon application submission, applicants are required to pay a fee of €365 + VAT, which covers the DSO's processing cost, the cost of the meter, the inspection and connection procedures. What is a commercial photovoltaic system in Cyprus?

Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption. That is, the energy generated by the solar panels is solely used for the building where the panels are installed.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

Where can photovoltaic panels be installed in Cyprus?

Photovoltaic systems can be installed on flat and inclined roofs and on the ground. Our team can visit the place where you want the solar panels to be installed, evaluate the amount of space, sun exposure and possible shading and suggest the best place so that you make the most out of your photovoltaic panels in Cyprus.

What is the maximum power of a net-billing photovoltaic system in Cyprus?

The maximum power of a Net-Billing photovoltaic system in Cyprus is 8 MW. It is an extremely beneficial scheme which helps people make a profit by generating and using Renewable Energy Sources. Read more Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption.

Who is eligible for a photovoltaic system in Cyprus?

Anyone with Cyprus permanent residency is eligible for a photovoltaic system in Cyprus, given that the property they want the panels to be installed on is interconnected with the EAC network and it was built according to the regulations of the Department of Town Planning and Housing.

What is a solar pump in Cyprus?

Solar pumps in Cyprus are pumps that work with the energy generated by solar panels. Solar pump maintenance is very important to ensure that the system works as it should and that the water is clean.
