

# **Solar power system installation near me**

## Overview

---

How do I get a solar installation?

Fill out the online form, and a trusted independent installer will call you to schedule a consultation. The solar specialist will review suggestions for your home based on square footage, power needs and appliance wattage to ensure a whole-home solution.

Where should a solar power system be installed?

Regardless of the type of solar panel used, the most ideal setup for a solar power system is installing solar panels on a roof — in a region with long peak sunlight hours — with the panels facing south (for homes in the Northern Hemisphere). Investing in a solar power system is easier today than ever before.

Does Home Depot install solar?

During your free in-home consultation, The Home Depot's local solar power installer will clearly explain the installation process and how easy it is for you to go solar. By powering your home with clean, renewable solar energy, you're creating a healthier environment and conserving natural resources.

How do I contact a solar panel installation company?

We encourage you to contact us directly through our official channels for any service inquiries or concerns. Team up with a leading solar panel installation company near Los Angeles, CA. Reach us today at (866) 890-1240 to set up an appointment.

What is a residential solar power system?

A residential solar power system consists of photovoltaic panels and other equipment that collect sunlight to produce energy for your home. How many solar panels do I need?

The number of solar panels you'll need to meet the energy demands of your home depends on your home's location and roof size.

What are people saying about solar installation services in Los Angeles?

What are people saying about solar installation services in Los Angeles, CA?

"Tim and the team at AWS Solar did a very thorough job explaining what and why we needed to have a specific system that would satisfy our household's needs. High quality install and recommendations of areas that needed repair in advance of install.
