

Solar power with generator

Overview

Can a solar generator power a home?

A few years ago, solar generators were mostly good for camping and charging your phone in emergencies. Now, you can find a solar generator that can power your entire home. In fact, you can find a solar generator that's perfect for your specific application whether it's home backup, camping, RV or off-grid living.

What are solar generators used for?

Solar generators are versatile and can be used in a variety of situations. Here's a quick breakdown of where they shine: Home Backup Power: Perfect for keeping essential appliances like refrigerators, lights, and medical devices running during power outages. Outdoor Adventures: Reliable power for camping, RV trips, or off-grid explorations.

What is a solar generator?

Though "solar generator" is a bit of a misnomer, these can keep the power flowing wherever the sun shines. Gear-obsessed editors choose every product we review. We may earn commission if you buy from a link. Why Trust Us?

.

Do portable solar generators really work?

Amid the range of power stations, portable "solar generators" give you a way to draw in clean electric power from our most abundant resource, sunlight. However, using one effectively is a little more complicated than many people realize.

What makes a good solar generator?

Solar generators need to keep the power coming in and going out. The best solar generators can simultaneously charge all your intended devices via

whatever plugs are necessary. Any portable power station worth your money will have a high output capacity so you can charge many devices, even if they require a lot of juice.

What is a good portable solar generator?

If you want a portable solar generator that can power most appliances, the Jackery Explorer 2000 Pro is a good pick. It comes with a built-in 2200W inverter, meaning it can power most household appliances including a full size refrigerator, TV, blender and others. You can also run power tools off the 2000 Pro.
