

Solar powered christmas ornaments

Overview

What are solar garden ornaments?

Solar Garden Ornaments are outdoor decorations that capture the power of the sun during the day and give your garden character at night. They come in various styles from cute and quirky to stylish and contemporary. Intelligent Solar Lights ensure 8 hours of light every night all year round, even in winter.

Do garden ornaments light up if the sun goes down?

Once the sun goes down, the garden ornaments light up, illuminating your yard with only the power of the sun. These garden ornaments are beautiful, affordable, environmentally friendly and practical. Add a little light along a walkway or highlight the boundaries of your yard with ease.

How do you decorate your yard for Christmas?

Many people like to make Christmas blowups, or inflatables, a focal point of their yard presentation. Be sure to anchor them with stakes and tie-downs. Be careful not to place them too close to trees or shrubs as they can snag on the branches. Green extension cords help camouflage your power source so that all eyes remain on your décor.
