

Solar powered electric fence controller

Overview

What is a solar electric fencer?

Portable solar electric fencer: All-in-one battery and solar electric fence kit designed for portability. Durable, heavy-duty polycarbonate enclosure for weather resistance, rust, and corrosion protection. Easy to move anywhere you need electric fence wire with a simple one-piece hybrid design.

What is a solar electric fence charger?

Solar electric fence charger: Our cutting-edge 2.3W solar panel charges fast in low light conditions, ensuring reliable power for your solar fence charger. High-capacity battery storage for up to 10 days of containment and predator protection in remote areas.

Do you need a solar fence charger?

Thankfully, there's an easy answer to questions of location, budget, and safety: a solar fence charger. Fitted with a solar panel, a solar charger is designed to power your electric fence and charge your battery during sunlight hours, so that your battery can run independently through the night.

Can a solar electric fence charger power a rechargeable battery?

A solar fence charger can power rechargeable invisible fence batteries and above-ground electric fences alike. These solar electric fence chargers absorb light and convert it to usable energy to electrify your fencing. For extra reassurance, choose an electric fence charger with various power sources.

Does Home Depot have a solar fence charger?

To verify or get additional information, please contact The Home Depot customer service. With the Zareba 10 Mile Solar Low Impedance Fence Charger, your fence can be powered from anywhere, even the most remote fields. This fence charger runs up to 2 weeks without sunlight and is powered by an internal rechargeable battery.

What is a 5 mile solar low impedance fence charger?
