

Solar powered fence charger

Overview

Can a solar electric fence charger power a rechargeable battery?

A solar fence charger can power rechargeable invisible fence batteries and above-ground electric fences alike. These solar electric fence chargers absorb light and convert it to usable energy to electrify your fencing. For extra reassurance, choose an electric fence charger with various power sources.

How do solar electric fence chargers work?

These solar electric fence chargers absorb light and convert it to usable energy to electrify your fencing. For extra reassurance, choose an electric fence charger with various power sources. Many can be plugged in, or use a combination of solar power and backup batteries.

What is a solar fence charger?

Also referred to as a solar fencer or energizer, a solar fence charger is a device that helps generate the electrical current that runs through the solar electric fence. Solar fencers use energy from the sun to make the power that is used to deter encroaching animals or prevent livestock from going beyond a particular area.
