

# Solar powered fence light

## System Topology

## Overview

---

Solar fence lights can add ambience and enhance the safety of a lawn, garden, pool, or patio space. Their batteries use energy captured from sunlight—no cords or power cables are required. Over the course of the day, they store this energy and then convert it into useful light.

Solar fence lights can add ambience and enhance the safety of a lawn, garden, pool, or patio space. Their batteries use energy captured from sunlight—no cords or power cables are required. Over the course of the day, they store this energy and then convert it into useful light.

The ClimatePartner certified product label confirms that a product meets the requirements for the five steps in climate action including calculating carbon footprints, setting reduction targets, implementing reductions, financing climate projects and communicating transparently to continuously.

Solar fence lights can add ambience and enhance the safety of a lawn, garden, pool, or patio space. Their batteries use energy captured from sunlight—no cords or power cables are required. Over the course of the day, they store this energy and then convert it into useful light in the evening. We.
