The solar fountain adopts 100% glass solar panels with stronger light transmittance, it's can promote the conversion of Sunlight into stronger energy and make the water spray more stable and lasting. The solar fountain uses new anti-corrosion glass materials to ensure that if it's for a long time.

LATEST 1W SOLAR POWERED: The solar birdbath fountain only needs 3 seconds to operate automatically in direct sun, with a spray height of 50-70cm. No electricity or battery needed. The most important this will attract a lot of hummingbirds to your garden! (Solar fountains does not store energy, may.

Customer Review: When the sun is out it works! Customer Review: Works only in plain sunlight ! A wonderful addition to your garden! Using Tips: A leaf on the panel will stop it from functioning; Please don't allow the water to get too low; Please keep the water and pump clean to avoid blockage; It.

Our solar fountain pumps allow for a great mix of mother nature and manmade machinery. Each Solar floating fountain pump creates a water spray making the surrounding water environment ripple with beauty and ease.

When selecting or choosing solar floating fountain from Silicon Solar, we recommend.

Unlike traditional fountains that rely on tangled wires or electricity, POPOSOAP's solar powered floating pond fountains bring you a smarter, cleaner way to keep water moving—powered entirely by the sun, and freely floating on your pond, birdbath, or garden basin. Why Choose a Floating Solar. How does a solar water fountain work?

This solar water fountain is a perfect accent to your garden or yard, especially small applications like a bird bath or small pond. Its compact size is great for keeping visiting aviary entertained. The solar fountain pump floats on the water and no need electricity . Will run automatically when the sunlight hit the solar panel.

How to choose a solar water fountain?

We also recommend that you use a deeper and wider birdbath. This solar water fountain is a perfect accent to your garden or yard, especially small applications like a bird bath or small pond. Its compact size is great for keeping visiting aviary entertained. The solar fountain pump floats on the water and no need electricity .

Why should you choose a solar floating fountain pump?

These lights and fountains are also great for oxygenating to your pond and preventing algae from build up. Our solar fountain pumps allow for a great mix of mother nature and manmade machinery. Each Solar floating fountain pump creates a water spray making the surrounding water environment ripple with beauty and ease.

How many solar water fountains are there?

Why stop at solar floating fountains, join the rest who have used our selection of over 235 solar water fountain products both small and large. Installing a floating solar fountain is quick and easy. Most floating solar fountains come, for the most part, assembled.

How do you use a solar fountain?

Please make sure the solar fountain is under direct sunlight. Make sure there is enough clean water in the basin to at least float the product. Make sure there is no debris to block the pump when using. Shake the product vigorously

up and down before use and press the product into the water to expel air from the pump.

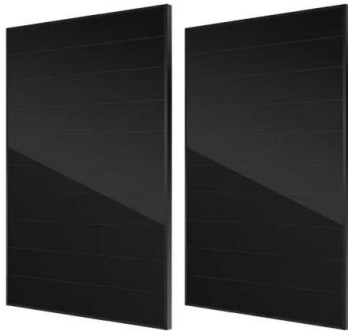

Can a solar fountain be left without water?

Do not leave the solar fountain in direct sunlight without water, it may damage the pump. The surface of the solar fountain may whiten with prolonged use, weekly cleaning and use of Birdbath Fountain Maintenance is recommended. If you feel that the water spray is too high, you can use a nozzle with a shorter spray height or no nozzle.
