Where can I buy a solar refrigerator & freezer?

At Warehouse Appliance, we offer SunStar DC-powered solar refrigerators and freezers, including both an upright and chest style, which are available for purchase and shipping in the United States. Refrigerators are among the greatest innovations of the previous century.

Which solar refrigerator is best?

If you're looking for a solar refrigerator that's more portable, the BougeRV CR55 offers the same capacity and value as the E55 but with integrated wheels. The Iceco VL60 is a dual-zone solar refrigerator. It provides 60 liters of capacity and is designed to run off either 110 V AC or 12 V DC power.

What is a solar fridge?

What is a Solar Refrigerator?

A solar refrigerator is a fridge that operates utilizing solar energy from photovoltaic cells (also known as solar panels) – as opposed to electrical energy from a power grid. Solar panels absorb energy from the Sun and store it in a battery, which our solar fridges utilize for power.

Is a solar refrigerator always a DC refrigerator?

In general, a solar refrigerator is not always a DC refrigerator. The term “DC” refers to a type of electrical current. There are two types of electrical currents: alternating current (AC) and direct current (DC). Both forms can be used by

refrigerators.

How much does a solar refrigerator cost?

Most models approaching standard home size will cost over \$1,000 and smaller units can still cost multiple hundreds of dollars. It's best to look at buying a solar refrigerator as a long term investment. They use less power than traditional fridges and will save you money on the overall size of your solar power system.
