Solar powered light tower

Overview

What is a solar lighting tower?

Globe Power's solar lighting towers have been built to suit various industries and provide a broad range of solutions from solar street lamps, metro and mine specification lighting solutions. They provide renewable, low emission, low noise and safe solutions, at a low running cost.

What is the Mobile Solar Light Tower?

The Mobile Solar Light Tower is a cost effective solution to your outdoor lighting needs. For more information about the Mobile Solar Light Tower System, please contact us.

What is a solar power tower?

A solar power tower is a concrete tower used to concentrate heat in solar thermal power plants. These towers are also essential for solar power plants that generate power using reflectors that concentrate sunlight. In such plants, a large number of sun-tracking mirrors called heliostats are used to reflect and concentrate sunlight onto a receiver on the tower.

How many watts is a Helios light tower?

1600 to 2800 Watts 800 to 1200 Amp Hours of Battery Storage Progress Solar™ HELIOS Light Towers are a series of rugged, mobile outdoor light and power systems. These portable solar light carts are universally considered best in class able to fit the most solar in small footprint than any competitor.

How many lumens does a Solight light tower have?

Our standard model puts out over 36,000 lumens and can be upgraded with even more powerful lights to give off double that and more. Solight light towers are built to work just as hard as you do. Contact us today and see why everyone from college event planners to mining and construction organizations are switching to Solight solar light towers.

How do solar powered lights work?

For example, Solight towers can be set to automatically detect when the sun goes down and turn on your lights automatically. When the sun comes back up, it detects the incoming sunlight, and turns your lights off. Set your tower up once, and never touch it again. Can solar-powered lights really be that bright?

Absolutely.
