

# **Solar powered pond water fountain**

## Overview

---

Is there a solar-powered fountain pump for a pond?

This solar fountain pump is suitable for a pond and is a floating fountain kit. It is solar-powered and is an outdoor birdbath watering decoration garden fountain. A new solar bird bath fountain pump has been launched.

How does a solar-powered pond fountain work?

The solar-powered pond fountain works with direct sunlight and doesn't store any excess energy for use in the nighttime or during the cloudy weather. To be able to place the solar panel in a bright place, the pump comes with a 16-foot long cord for convenient connection to the solar panel.

What is a solar pond fountain?

This solar pond fountain features a round solar panel with a fountainhead in the center and a solar pond pump. It is suitable for use in small ponds and offers water circulation and aeration for the pond. It can shoot water about 30 to 50 centimeters into the air.

Which solar water fountain is best for a pond?

The SolarSeries solar water fountain best suits ponds up to 1/2 acre, providing aeration to ponds up to 6-8 feet deep. The fountain reaches its full height in full sunlight, producing crisp, high-flow displays.

Do you need a solar pond fountain?

Don't let location or lack of power hinder your dream of having a pond fountain. A solar fountain will allow you to experience the magic of water in motion while making a positive impact on the environment. Explore our solar options today and turn your pond into a paradise without the electric bill.

How many solar panels are included in a large pond fountain?

Two 35-Watt Solar Panels Included This solar-powered large pond fountain includes two 35-watt solar panels, a solar pond pump, and all the necessary tubing for installing this solar pond fountain. The submersible water pump has a filter for preventing the debris from blocking the water pump.
