From charging a laptop to running a welder, here are some of the best portable power stations you can run with the sun. Our editors and experts handpick every product we feature. We may earn a commission from your purchases. Learn more. Portable power stations that recharge via solar panels have.

The best portable solar chargers for outdoor adventures feature the BigBlue 28W USB Solar Charger as our overall winner, delivering reliable power for camping, backpacking, and outdoor activities while weighing just over a pound. I'm a science writer who has been covering solar energy and writing.

Whether you're backpacking in the Himalayas or working in your backyard, a portable solar battery charger offers a vast supply of power that you can easily fold up and carry with you. While the sun is out, you can catch rays to charge a phone, a laptop, and other small electronics, and (when paired.

We tested 19 solar chargers from BigBlue, FlexSolar, Goal Zero, Biolite and more to find the best for your setup. A dead device is deadweight when an electrical outlet is nowhere in sight, which is when a portable solar charger comes in handy. It can keep your gadgets powered up when you're.

The sun powers our world, and with the right portable solar panel, it can also power your outdoor adventures or home emergency set up. I've tested dozens

of models from top brands like Bluetti, Jackery, Anker, Goal Zero, EcoFlow, and BioLite, and have come away impressed with their power generation.
