

# **Solar powered power vent**

## Overview

---

A smart alternative to conventional roof vents, the Solar Powered Attic Vent operates during the day and collects power from the sun to convert into electricity. In turn, this energy operates a high efficiency motor inside the power vent, so there's no added cost for electricity.

A smart alternative to conventional roof vents, the Solar Powered Attic Vent operates during the day and collects power from the sun to convert into electricity. In turn, this energy operates a high efficiency motor inside the power vent, so there's no added cost for electricity.

Lomanco® currently offers two solar power vents, the Omni Solar Vent™ and the Omni Solar Gable Vent. Lomanco solar vents are your attic's best choice for solar powered protection against heat and moisture from sun-up to sun-down. All Lomanco® solar power vents utilize a 40 Watt solar panel is the.

Low-profile vent with integral solar panel uses the sun's power to reduce heat/moisture in the attic. The low-profile Master Flow™ Green Machine™ High Power Solar Roof Vent, Solar Powered Model PRSOLAR2 uses the sun's power to help reduce damaging heat/moisture in the attic. Solar power eliminates.

The patented (Patent # 8,915,778) Next Generation Dual Powered unit will run on free solar power (750 CFM) when the sun is shining on the solar panel but will automatically switch to house power (900 CFM) if it is cloudy or nighttime. Hot attic air is removed by the fan as fresh air is drawn in.

If you're looking to enhance your home's energy efficiency and air circulation, solar-powered roof ventilators might be the solution you need. These systems harness solar energy to keep your attic cool, which can improve your HVAC performance. With various options available, each designed to meet.

Solar-powered roof ventilation systems offer an eco-friendly solution that can dramatically reduce your cooling costs while extending your roof's lifespan.

These innovative systems harness the sun's energy to expel hot air from your attic without consuming electricity, working hardest when you need.
