

# **Solar powered water pumps for small ponds**

## Overview

---

What is the best solar pond pump?

If you are looking for a solar pond pump that is very easy to install and can provide you with various custom features, the PowerEZ Solar Water Pump Kit is one of the best choices out there. This pond pump is ideal for fish tanks, birdbaths, small ponds, and garden decorations and it provides a very good degree of water circulation.

What is a solar pond pump?

A solar pond pump is an environmentally-friendly alternative to a battery/mains powered pond pump, used to pump water around the pond, keeping it aerated and suitable for plants, etc. These pumps usually sit on a pond ledge or shelf, upon the pond liner itself.

What is the best pond pump for small ponds?

An excellent option for those who are looking for a pump that is suitable for small ponds, the Sunnydaze Outdoor Solar Pump and Panel Fountain Kit comes complete with two solar panels and extension that allows you to reach the middle of a pond. This pump can spray water up to 120 inches high, and it can move up to 369 gallons of water per hour.

What are the different types of solar pond pumps?

Submersible and floating solar pond pumps are a lot more common. With a fountain or diffuser adding oxygen to the water, this pump will live on the surface of your pond or water garden.

Do I need a solar pond pump?

If you want to add a bird bath to your pond or are simply looking for a zero-cost solution for running a small water feature in your pond, you need to purchase a solar pond pump.

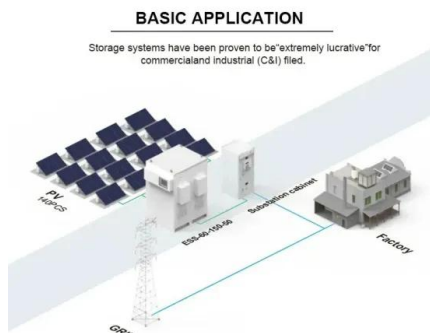

How much does a solar pond pump weigh?

The total weight of the pump is only 5 pounds, which makes it very easy to handle. We also liked that the pump comes with a maintenance-free brushless DC motor that is highly reliable. This solar powered pond pump is large enough for the vast majority of fountains and water features and has a total power of 50W.
