A solar powered fountain is a great idea for smaller ponds because the movement of the water will help create oxygen for the fish and other aquatic animals that live there. They work great for adding a bit of decoration to your garden, and if you have a birdbath, it will make a great addition there.

Our AquaJet series kits are affordable, reliable and have no running costs like traditional electric water pumps. We look forward to helping you on the next project. Since 1999 we've provided a selection of solar pump kits, replacement pumps, solar panels, and pond aeration , and filter solutions.

Our solar powered water pump kits provide flexibility to achieve your desired water feature effect. Experience cost savings, sustainability, and the ease of solar power for your birdbath, fountain or other outdoor water feature. Absolutely. You get all the benefits of a high-functioning water pump.

The Sunnydaze Decor Solar Pump Kit is designed for fountains ponds or other outdoor use. The 4.25" solar panel must be placed in direct sunlight in order for the solar pump to function. Once placed in the sunlight the pump can create a beautiful water effect with one of the 5 included spray heads.

Harnessing the power of the sun, these energy-efficient pumps offer a

sustainable way to move water for gardens, ponds, and more. We put them to the test to see how they'd perform in real-world conditions. We may earn revenue from the products available on this page and participate in affiliate.
